**Product**  
Welding Cassette

**Model No.**  
SR 84

**Ordering No.**  
T01-1212

## Product Description

The Welding Cassette SR 84 is intended for use together with the Sundström SR 200 full face mask or the compressed air-fed mask SR 200 Airline. These combinations are designed for protection against harmful gases, radiation and spatter during welding, flame cutting, grinding and similar work.

The design of the combination makes it usable for work in confined and inaccessible areas.

The welding cassette is delivered with a protective polycarbonate visor. Before use a welding visor with suitable shade number must be fitted to the welding cassette.

The visor must be CE marked and of standard 60x110 mm size.

## Technical specification

| SR 84                 |                             |
|-----------------------|-----------------------------|
| Material              | ABS/PA                      |
| Weight                | ≈ 185 g                     |
| Welding visor size    | 60 x 110 mm                 |
| Protective visor size | 60 x 110 mm                 |
| Approvals             | EN 175:1997, PPE 89/686/EEC |

- A. Welding cassette**
- B. Visor holder**
- C. Protective visor**
- D. Welding visor (not included)**
